🚨 Top Priority Remediation Items

Priority	Finding / Issue	Category	Root Cause & Impact	Immediate Fix
CRITICAL	**Norwegian Test Blog Post Active**	Crawl Hygiene	`/blog/velkommen-til-bloggen-min/` is indexed with default Norwegian placeholder copy.	Permanently delete post in WP Admin and issue 410 Gone status.
HIGH	**Unprimed Dynamic Origin TTFB**	Performance	188/500 URLs (37.6%) exceed 1,000ms response time on dynamic WordPress PHP execution.	Deploy Cloudflare Edge Cache Rule (Cache Everything with wp-admin cookie bypass).
HIGH	**Branch Schema Inheritance Gap**	Schema / Entity	Regional hubs (/philadelphia/, /baltimore/) inherit only top-level Organization schema.	Deploy localized `RealEstateAgent` JSON-LD with regional address, phone, and geo coordinates.
MEDIUM	**Missing Meta Descriptions**	On-Page SEO	4 URLs lack meta descriptions (/sitemap/, /chelsea-lewis/, /locations/maryland/).	Write concise 155-character meta descriptions highlighting regional services.

Priority	Finding / Issue	Category	Root Cause & Impact	Immediate Fix
MEDIUM	**Unclaimed .EDU & REIA Backlinks**	Authority	Zero links from major regional university housing boards (JHU, UPenn, Temple, GWU).	Execute official Off-Campus Housing directory submission playbook.
