Subject: STORY PITCH: Q3 Mid-Atlantic Rental Rate & Vacancy Index [Exclusive Portfolio Data]

Hi [Reporter Name / Business Editor],

As rental rates and tenant turnover fluctuate across the Mid-Atlantic, many national reports rely on lagging survey estimates.

Bay Property Management Group oversees thousands of residential doors across Baltimore, Philadelphia, and Northern Virginia. We just finalized our internal Q3 Mid-Atlantic Rental Market & Eviction Defense Report, revealing several counter-intuitive trends in the local market:
• Average Days on Market: [X days in Baltimore vs Y days in Center City Philly]
• Lease Renewal Rates: [How tenant retention changed following recent interest rate movements]
• Most Requested Rental Amenities: [Shift in remote-worker demands in suburban MD/VA vs urban cores]

Would you be interested in reviewing an advance executive summary of this data for an upcoming real estate or market trends piece? We can also make our Regional Director available for commentary.

Let me know and I will send over the one-page data sheet.

Best,
